

# Genetic Detoxification

---

 geneticdetoxification.com/

## Welcome to the First Day of the Rest of Your Health

---

The purpose of GeneticDetoxification.com is to provide individuals with a personalized genetic report using “23andMe” results to follow along with the cutting-edge book: *Genetic Testing: Defining Your Path to a Personalized Health Plan*. Your GeneticDetoxification report will give you your genotype for each gene that is discussed in the book.

## Ready to Get Started?

---

1. Order your kit from “23andMe” and send them a saliva sample (Ancestry only or Health + Ancestry)
2. “23andMe” will notify you when your results are ready
3. Buy the book *Genetic Testing: Defining Your Path to a Personalized Health Plan* by Christy Sutton, D.C.
- \* 4. Sign Up and order your personalized GeneticDetoxification Report (\$30.00 per report). Use GeneticDetoxification Report to follow along with the cutting-edge book *Genetic Testing: Defining Your Path to a Personalized Health Plan*. (*Don't buy the Kindle edition for this process as the page numbers do not correspond with the report*)
5. Work with your doctor to create a customized health plan using your new health insights
- \* Dr. Johnson will upload your 23andMe raw genetic data file into the Genetic Detoxification Report software. You will need to provide your file on a USB "thumb drive". This procedure will be done in your presence. After your report is download and printed, your data file will be deleted from the software site. Be assured, this process will be completed with you being fully present during the entire process.

Once you have your report, you will need to review pages in the *Genetic Testing: Defining Your Path to a Personalized Health Plan* book that corresponds to the one and two copy gene flaws on your report. You will be looking for signs and symptoms related to your health concerns. Make a list and report back to Dr. Johnson the results of your investigation.

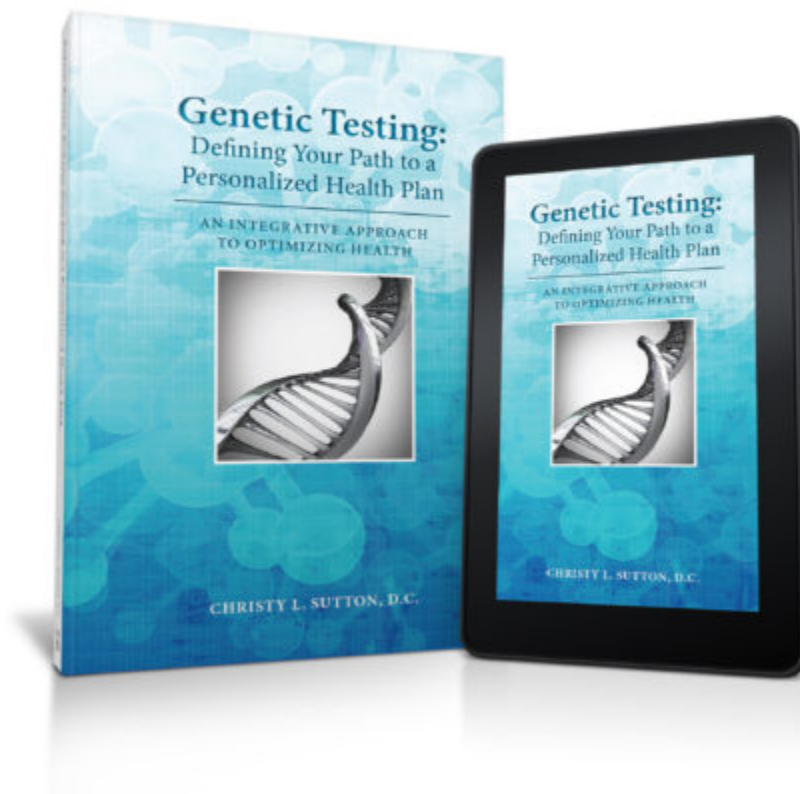

✦ FYI

# 23andMe Raw Data File Download Issue - Workaround

---

How to obtain your raw data from 23andMe?

You can still get your raw data from 23andMe, however, you will need to message 23andMe, and ask for the file. They have temporarily disabled downloading the raw data file. You will need this raw data file to create your Genetic Detoxification report

[Learn More](#)

GeneticDetoxification is a software as a service program that allows you to generate your personal genetic report through this website. Your GeneticDetoxification report is designed to go along with Dr. Sutton's cutting edge book Genetic Testing: Defining Your Path to a Personalized Health Plan.
